## STREAMLINE SOLUTIONS

### Infectious Waste Bag Certification

The Red "Infectious Waste/Biohazard" bags produced for Streamline Solutions meet or exceed ASTM tests D1709-01 and D1922-00A. This covers Streamline Solutions code numbers:

IW1114-11 x 14  
IW1419-14 x 19  
IW2423-24 x 23  
IW2433-24 x 33  
IW3339-33 x 39  
IW4046-40 x 46  
IW5464-54 x 64  
\*All IW-Series bags

All infectious waste disposal bags must bear the international biomedical hazard symbol and one of the following phrases; "Biomedical Waste", "Biohazardous Waste", "Infectious Waste", or "Infectious Substance". The symbol must be 6" in diameter unless bag dimensions are 14" x 19" or smaller. The bags must be red in color, impervious to liquids, and the print must contrast with the background color. All bags are manufactured from 100% virgin resin.

All bags are certified by the manufacturer to pass ASTM D1922-00A for impact resistant, and ASTM D1709-01 for tearing (Elmendorf Tear Test), as per paragraph 64E-16.004(2)(c) Florida Administrative Code.
